1 Secure the mounting plate to the junction box. **NOTE: Model CO1482, CO1472, CO1491 must be secured with anchors and screws.**

2 Install the reflector plate by affixing it to the back of the fixture frame with the provided hex nuts.

3 Install the candle tube on to the socket assembly.

4 Screw the lamp into the socket. Refer to the label on the lamp socket for Max Wattage Information.

5 Install the glass panels into the fixture frame and secure them in place with the glass clips.

6 Install the fixture cap on the top of the fixture frame and secure it in place with the provided screws.

7 Connect the fixture to a suitable ground in accordance with local electrical codes.

8 Connect the white fixture wire (square and/or rigid) to the neutral power line wire with a wire nut.

9 Connect the black fixture wire (round and/or smooth) to the hot power line wire with a wire nut.

10 Neatly place all the wires into the junction box, place the fixture base onto the mounting plate, and secure it in place using the fixture screws.

11 For wet locations, caulk around the base of the fixture with waterproof construction sealant.
